

SPRING/SUMMER 2011 COLLECTION

VIBRAM FiveFingers® KomodoSport (P6, 250) – New for Spring Summer 2011

With today's athlete in mind, Vibram FiveFingers® has raised the intensity with the Vibram FiveFingers® KomodoSport. This aggressive multisport design inherits what we love about the KSO with functional improvements that appeal to the most active fitness enthusiast. For the first time ever, Vibram® introduces a stitch-free, seamless 2mm footbed to reduce friction. Heel and instep hook-and-loop closures help secure the stretch nylon upper to the contours of your foot—just like a second skin. The KomodoSport wouldn't be complete without a 4mm Vibram® TC1 performance rubber outsole which provides the grip and protection you need for a variety of cross training activities.

Komodo Sport Best for: Running and Fitness

VIBRAM FiveFingers® Bikila LS (P5,950) - New for Spring Summer 2011

Following in the footsteps of the original Vibram FiveFingers® Bikila, the new Bikila LS offers a closed speed lace system to accommodate a wider foot or higher instep. It shares the same revolutionary platform as the Bikila, featuring a Dri-Lex covered 3mm polyurethane insole (thickest under the ball) and a 4mm anatomical pod outsole

design. This combination provides superior plating protection and distributes forefoot impact without compromising essential ground feedback. The Bikila LS' upper is constructed of Coconut Active Carbon for natural breathability.

An athletic padded collar and topline, 3M reflective surfaces, and abrasion resistant PU toe protection add to Bikila LS' road worthy design. The defining feature of the Bikila LS' is its closed quick lace system assuring a custom fit for a wider range of foot types.

Machine Washable, Air Dry.

Bikila LS is Best for: Running and Fitness

VIBRAM FiveFingers® Jaya (P4, 950) - New for Spring Summer 2011

The Vibram FiveFingers® Jaya fosters grace and power in a minimalist design. Created specifically for the modern fitness enthusiast, the stretch nylon upper and padded collar comfortably secure the foot during exercise. The athletic

upper provides coverage that will secure the Jaya on the foot. The 5.5mm EVA sole makes the Jaya one of the lightest models in our collection. Strategically placed Vibram® TC1 performance rubber pads provide grip and durability to

this unique sole design. The Jaya can be worn for a variety of indoor and outdoor fitness activities requiring balance, agility and power.

Machine Washable, Air Dry.

Jaya is Best for: Fitness, After Sport and Travelling

VIBRAM FiveFingers® Jaya LR (P6,250) – New for Spring Summer 2011

Sleek leather overlays and a feminine topline differentiate the Vibram FiveFingers® Jaya LR. Don't be fooled, this new model for Spring 2011 will stand up to high reps and grueling intervals—all in a foot-flattering design. The 5.5mm EVA sole makes the Jaya LR one of the lightest models in our collection. Strategically placed Vibram®

TC1 performance rubber pads provide grip and durability to this unique sole design. The Jaya LR can be worn for a variety of indoor and outdoor fitness activities requiring balance, agility and power. *Machine Washable, Air Dry away from sun or heat source*

Jaya LR is Best for: Fitness, After Sport and Travelling

CLASSIC P3,950 (FOR CASUAL WEAR)

From day one, the VIBRAM FiveFingers® Classic has drawn the attention and praise of the press and active barefoot enthusiasts alike. Available for men and women, our original VIBRAM FiveFingers® design takes a more casual and minimalist approach to barefooting. The upper features a thin stretch nylon fabric that fits low on the foot. Our non-marking 3.5mm VIBRAM® TC1 performance rubber soles are razor-siped for improved flexibility and slip resistance over a variety of terrain.

Machine Washable, Air Dry

Classic is best for: Fitness Training, Cross Fit, Travel, & After Sport

SPRINT P4,450

Some have called our VIBRAM FiveFingers® Sprint the most versatile footwear they own. Adjustable hook- and-loop closures across the instep and around the heel deliver a comfortable, secure fit. A thin stretch nylon fabric comfortably follows the contour of the foot. And a flexible, non-marking 3.5mm VIBRAM® TC1 performance rubber sole is razor-siped for improved flexibility and slip resistance.

Machine Washable, Air Dry

Sprint is best for: Running, Fitness Training, Cross Fit, Yoga & Pilates, Water Sports, Flats Fishing & Travel

KSO P4,950 (ALL AROUND SHOE)

In just over a year, the KSO has become our most popular model for men and women. Featuring a thin, abrasion- resistant stretch nylon and breathable mesh upper that wraps your entire forefoot to “Keep Stuff Out.” A single hook-and-loop closure helps secure the fit.

A non-marking 3.5mm VIBRAM® TC1 performance rubber sole is razor-siped for a sure grip and a 2mm EVA midsole enhances plating protection and comfort.

Machine Washable, Air Dry

KSO is best for: Running, Fitness Training, Cross Fit, Light Trekking, Bouldering, Water Sports & Travel

SPEED P5,450 (RUNNING AND CASUAL)

Unlike any shoe on the market today, the Speed is designed specifically for a more natural walking experience.

Built on an entirely new platform, the Speed features a Dri-lex® covered 3mm polyurethane insole (thickest under the ball) and a 3 mm anatomical pod outsole design, that offers more plating protection and distributes forefoot impact without compromising important ground feedback, essential to a proper forefoot strike running form. A more athletic padded collar and topline, a lace closure and Mesh upper for improved ventilation.

Speed is best for: Running

BIKILA P5,750 (RUNNING / SPORTY CASUAL)

Unlike any running shoe on the market today, the Bikila is a breakthrough product that encourages a more natural, healthier, and more efficient forefoot strike. While many have been running in their Vibram FiveFingers for years, the Bikila is our first model designed specifically for near barefoot running. Built on an entirely new platform, the Bikila features a Dri-Lex® covered 3mm polyurethane insole (thickest under the ball) and a 4mm anatomical pod outsole design that offers more plating protection, and distributes forefoot impact without compromising important ground feedback essential to a proper forefoot strike running form. A more athletic padded collar and topline, a single hook and loop closure, 3M reflective surfaces, and tear resistant TPU toe protection finish off this breakthrough design.

Bikila is best for: Running

KSO TREK SPORT P5,950 (RUNNING / TREKKING)

Building on the success and versatility of the KSO and KSO Trek, Vibram FiveFingers® presents the TrekSport. Our TrekSport offers a 4mm EVA midsole for plating protection and a lightly cleated 4 mm Vibram® performance rubber outsole for added traction on a variety of surfaces. The Coconut Active Carbon upper offers natural breathability and abrasion resistance for maximum performance during your outdoor and athletic pursuits.

KSO Trek Sport is best for: Trekking, Climbing, Running, Fitness and Travel
